PROFESSIONAL SUMMARY

Entry-level Full-Stack Developer with hands-on experience building web and mobile applications using React, Node.js, Laravel, Flutter, and MySQL. Experienced in full-stack development, REST APIs, database design, Agile collaboration, and deploying academic and client-based systems.

TECHNICAL SKILLS

Languages/Frameworks: JavaScript, PHP, React, Node.js, Express, Laravel, Livewire, Flutter

Databases: MySQL, SQLite, Sequelize ORM, MongoDB, Mongoose

Tools: Git, GitHub, Docker, Postman, Android Studio, VS Code

Concepts: REST APIs, Database Design, System Analysis, Agile/Scrum, Redis/Cache

EXPERIENCE

OJT Intern / Full Stack Developer

Jan 2026 - April 2026

Informatics College

Recto, Manila

- Led a student team in delivering three software projects during the internship.
- Contributed to frontend, backend, testing, and deployment tasks across the development lifecycle.
- Coordinated project activities to meet deadlines and ensure timely project completion.

Freelance Full Stack Developer

Jan 2024 - Present

Self-Employed

Marinduque

- Delivered web and mobile applications using Laravel, React.js, Flutter, and MySQL.
- Designed and optimized database structures and RESTful APIs.
- Collaborated with clients on requirements gathering, prototyping, testing, and deployment.

PROJECTS

SwiftDocs – Online Document Request System

React, Nodejs, Express, Sequelize ORM, MySQL, Docker

- Built a centralized platform for student document requests, tracking, and reporting.
- Streamlined request monitoring by helping staff prioritize pending requests more efficiently.
- Enhanced request visibility and status tracking for students and administrators.

Tableo – Event Tabulation System

React.js, Node.js, Express.js, Sequelize ORM, MySQL

- Engineered a digital judging and tabulation system for events and competitions.
- Automated score computation, ranking generation, and elimination-stage calculations.
- Increased scoring consistency, reduced human error, and accelerated result generation during events.

S.H.A.P.E. – Learning Management Platform

Flutter, Laravel, Livewire, MySQL

- Created a mobile learning platform designed for special needs students.
- Integrated interactive learning activities and progress-tracking features.
- Boosted student engagement and enabled effective monitoring of learning progress.

CHL SmartSolutions – Inventory & E-Commerce System

Laravel, Livewire, MySQL

- Built inventory management and e-commerce functionalities.
- Integrated low-stock monitoring and automated alerts to support inventory management.
- Optimized inventory visibility, reduced stock shortages, and streamlined task tracking.

EDUCATION

Bachelor of Science in Information Technology, Major in Software Development

2022 - 2026

Marinduque State University | Cum Laude
